

# Towards The Light: A Portrait of Withington Girls' School 125th Anniversary Book Order Form

This recently published book charts the School's development from the small establishment founded in April 1890 with four girls to its current position as one of the leading academic schools in the country. The book records the fascinating story behind the School's foundation, its relocation from Mauldeth Road to Wellington Road, its changing fortunes, significant events in its history, and the personalities who helped create the ethos and community we all recognise today. It shows how the School reflects the social and demographic change of the last 125 years. As well as being a celebration of the School's history, the book captures the essence of the 'Withington Experience' of recent years. Through informative and entertaining text, beautiful imagery, newly commissioned photography and reminiscences from alumnae, former and current staff, parents and pupils, the diverse and vibrant community which make the School the centre of excellence it is today is brought to life. The book depicts a true journey 'towards the light' how the girls educated at Withington and the School itself have found their place in the world.
